INFORMATION TECHNOLOGY ENTERPRISE SOLUTIONS – 3 HARDWARE (ITES-3H)

Computer Hardware Enterprise Software and Solutions (CHESS) is the Army's designated Primary Source for commercial IT. CHESS provides competitive prices for genuine products and services!

The scope of the ITES-3H contract includes the purchase and lease of commercial UNIX Based Servers, Non-UNIX based servers, desktops, notebooks, workstations, thin clients, storage systems, networking equipment (including wireless), network printers, product ancillaries (including equipment cabinets, racks and mounts), peripherals (including monitors), network cabling products, video teleconferencing (VTC) products, standalone displays (e.g., plasma screens, HDTVs), scanners, Everything over Internet Protocol (EoIP) products, communication devices, power devices, and software provided as part of the end to end solution (includes Enterprise Software Agreements (ESA), Non-ESA, SmartBUY, and Non-SmartBUY), warranty variations, and other related incidental services, accessories, and options.
PURPOSE

The purpose of the ITES-3H contracts is to provide all hardware and related software and services for end-to-end equipment solutions. It is important to note that although ITES-3H provides for the purchase of personal computers and notebooks, these are for the fielding of a complete system or as part of a total design solution, as opposed to a personal computer or notebook replacement vehicle.

  - POC Information (CHESS & Vendor)

The ITES-3H contracts are multiple award, Indefinite Delivery/Indefinite Quantity (ID/IQ) contract vehicles, specifically designed as the primary source of information technology (IT) equipment to support the Army enterprise infrastructure and infostructure goals with a full range of innovative, world class information technology equipment and solutions at a reasonable price. Working in partnership with the prime contractors, CHESS manages the contracts in coordination with ACC-RI. ITES-3H contractors are to enhance Army capabilities by partnering with and supporting the implementation of Network Enterprise Technology Commands (NETCOM) networthiness program. Through the use of ITES-3H, users have a flexible means of meeting IT hardware total-solutions requirements quickly, efficiently, and cost-effectively.
